Oggetto: TBA-507084 e TBA507119 per Bosch : LFS Next deliveries - June 2025 - M0161314

Ciao Floriana,
eccezionalmente manderemo al lavaggio una Unit Load per Solenoidi Bosch M0161314 incompleta.

Ti chiedo di prendere 24 dei 26 KLT disponibili e di creare una pedana più bassa con TBA-507084 e TBA507119 e di mandarla al lavaggio da Stamplast.

Servono urgentemente a Bosch.

In copia ci leggono Annamaria e Barbara.

3. Information of part loaded in unit load							
4. Package for the part							
The Max. load of the tote has to be lower than 12 kg. The unit load is calculated by the maximum quantity of KLTs however, it depends on IAB. Corrosion & dust protection (if necessary) have to be bought by the supplier. The supplier is responsible for the corrosion protection, but MPN can make a proposal. The boxes always deliver with the totally full number before parts get packaged, they have to be dried, cleaned (according to drawing specification) and cooled down. Empires will be allocate according to VR006. For any change of the serial packaging an acceptance of MPN is necessary (FO-03496). Costs charging by the principal of causation. The following unit load packaging were proposed: Layers per container and parts per layer applies to the smallest possible unit. E. g. bulk material one layer per number of parts.							
Main packaging	L x W x H (mm)	Layers per container	Quantity of part per layer	= Quantity per container	= Maximum parts quantity per UL	Quantity per packaging	Image
TBA-507084 Tray f. Proportional Magnet BFeDCT	396 x 297 x 63	1	36	36	1872	52	
TBA-507119 Lid f. Proportional Magnet BFeDCT	397 x 297 x 28,5					52	
TBA-550500 Kunststoffpalette für Sauberraum 800x600	800 x 600 x 156					1	
TBA-550528 VDA KLT-Palettendeckel A0806, für DKG	800 x 600 x 24					1	
Each line represents a single packaging element, entire table represents unit load.							
Is the unit load stackable during transport ☒ Yes ☐ No							
Stratification				☐ ☒ 2x81			

Frank
